Join us on October 13th, 2022 for our first annual Fall Symposium, "Changing Our Future", where we will begin to align economic new development initiatives and emerging resources towards changing negative population trends that have existed in our region for several generations.

Through panel discussions and keynote speeches by local experts, we will examine the census data and explore growth options that we can consider for our own investments moving forward.

Our Keynote Speakers and Panelists Include:

- Lt. Governor Jon Husted
- Dr. Edward (Ned) Hill, Distinguished Economic Development Professor at the John Glenn College of Public Affairs at The Ohio State University and former Dean of the College of Urban Affairs at Cleveland State University
- Russ Mills, Senior Director, Center for Regional Development, Bowling Green State University
- Joe Cimperman, President of Global Cleveland
- Panels designed around immigration, the new RAISE grant and local leaders discussing their observations related to new census data and trends

We want as many of you as possible to learn along with us at this important event, and thanks to the generosity of many sponsors, the Conference has been designed to be user friendly with the following fees:

Entrance Fee: \$25 | College Students: \$10
